

Orthotics Lab Singapore

Precision Custom Made Orthotic

## **ORTHOTICS LAB SINGAPORE**

### **Custom made Foot Orthotics**

#### **1. Manufacturing process**

Your custom orthotics is manufactured by Orthotics Lab Singapore with a clinical podiatrist designer.

A senior engineer or qualified staff would use a 3D scan/ impression foam box to capture your foot contour. The manufacturing process would include using a CAD/ CAM equipment to manufacture your custom made orthotics.

#### **2. Orthotic Warranty**

There is 1-year limited warranty on custom orthotics, excluding normal wear and tear.

#### **3. Return Policy**

All custom orthotics are manufactured according to your foot contours only. Therefore, it is non-returnable, non exchangeable and non-refundable.

#### **4. Orthotic modifications**

Modifications will be made to original prescribed orthotic at no charge for 1 month from time of manufacturing. It will be applicable to 1 time modification only.

1. Reduce Arch Height
2. Narrow/ Shortening of orthotic shell or heel cup

Other orthotic modifications will be subjected to reasonable charges as per Orthotics Lab Singapore's standard pricing.
